

LEANDRO MIRANDA

Principal Software Engineer & Tech Lead

 [mgleadandro](#)  mirandaleandro@gmail.com  linkedin.com/in/mirandaleandro

Leandro was born and raised in the beautiful is a small town of Porto Belo, Santa Catarina. He would then move to the state's capital to pursue his education at the Federal University of Santa Catarina. In the same town, he started a family and initiated his career as a software engineer.

He moved to the United States to pursue post-grad studies in Information Systems Management at BYU, graduating with outstanding performance.

He currently works at Pluralsight as a principal software engineer, developing the B2B platform in F#, Typescript & React. In his free time, Leandro enjoys playing video-games and backyard games with kids. His plans include retiring by the beach in his home state.
